on pulse pipe**

**(4) Knurled  
Knobs to remove  
cartridges**

**15-30 minute Job**  
**Completely Clean, Completely Safe**  
**Much Less Money to Maintain**

Although we offer both cartridge and filter bag units, a two or four cartridge unit is often the best solution based upon today's technology. We will recommend the correct solution based upon your application. Note: We can match any existing flange pattern.
