

THOMAS CONVEYOR
COMPANY®

*Serving
the Rendering
Industry
Since 1953*

Thomas Conveyor puts to work our decades of experience to custom design systems to meet your individual needs. Specially engineered features increase the reliability of our machines in your environment.

No other company comes close to Thomas Conveyor's engineering and design capabilities. We can deliver equipment that has been custom designed if necessary, to fit perfectly your specific application. Through our computer-aided design department and real-life experience, we utilize the latest technology and practical design sense to find effective solutions for your plant.

Thomas Conveyor maintains a large inventory of stainless steel, carbon steel, and galvanized components available for 48-hour shipment.

When your reputation is on the line, you need a screw conveyor with a proven track record in the Rendering Industry.

Thomas Conveyor's sales representatives and engineers utilize their vast experience and expertise to work closely with our clients. They determine those factors of each individual application which have a direct bearing on the conveyor's reliability.

- **Correct Size / Appropriate Speed**
- **Correct Construction Materials**
- **Maintaining Accurate & Consistent Tolerances in Manufacturing**
- **Complete Assembly and Testing Before Shipment**
- **Vast Inventory of Stock Screws & Parts**

Since 1953, Thomas Conveyor has been the industry leader in providing reliable, quality conveying systems. With more than three hundred employees in four manufacturing facilities, Thomas Conveyor is the largest screw manufacturer in North America. But it is the reliability and the long service life of our products that has made us the 'giant' in this industry.

The Largest Custom Screw Conveyor Manufacturer in North America.
